**Community Service:** (Danielle Stock) re FASP-CSFI drive Oct2009:

Pros - we had more involvement this year from GrASP and NOVA Southeastern University. They participated by delivering the donations and decorating collection boxes. Jackie Bell and Kimberly Van Epps were instrumental in organizing a drive at their middle school. They had the largest amount of donations collected.

Cons - The individual areas collected very few donation items, with North Area collecting none!!! This may have been due to the changes in the donation drive, where more items were requested and people may have been confused about what specifically to bring in. Traditionally a teddy bear drive, the CFSI opted to collect uniforms, school supplies, and used books this year. Our community service committee had just completed a school supply drive prior to this one, which may have impacted our ability to collect items. Future plans include being more selective about donation items and marketing the drive more effectively in our areas. Also using Jackie and Kimberly's model and encouraging more schools to get involved.

**Social Committee:** neither chairperson present. May need to change the date or the time, according to Hector (NAO SS Coordinator)

**Thanksgiving:** (Colleen Claffey) BASP to donate money to each area office, used to be \$25 per area but will increase slightly since down to 3 areas. Vote on \$35 per area. Approved.
